Other

***NOTE: Copy of ODOT Permit MUST be attached**

Instructions:

Applicant must complete all applicable sections of the permit application. ODOT permit must be attached along with this permit application.

The County Engineer will review the haul route to assess the need for traffic control, bridge analysis, etc. If a County bridge is determined to require a load rating, the applicant will have two options: (1) Supply the County with the appropriate Engineer-stamped load rating and calculations or (2) request the County Engineer complete a load rating. Both of these options will be done at the expense of the applicant. Please see the fee schedule below for guidance on permit fees and load rating costs.

Fee Schedule:

Permit Fee (required on ALL Permits)	\$100
After-the-fact Permit Fee	\$300
County-supplied Load Rating Analysis*	\$300 - \$1100 (per loading per bridge)

*Allow a minimum of 1 week for County-Supplied Load Rating Analysis completion

Fees will be invoiced upon completion and approval of permit. Please DO NOT submit payment with the application.

Applications may be submitted to the County Engineers office in person, via email (azwick@monroecountyengineer.com) or via fax (740) 472-2530.
